## System 200

### 3 Hooks Seafood, Marrickville, NSW

3 Hooks Seafood is a wholesale seafood business located close to Sydney's central business district. The company supplies a mix of fresh and processed seafood to inner city restaurants and supermarkets. The 3 Hooks Seafood facility recently extended their cleaning and preparation area to cater for increased production volumes.

#### Project Design Brief

The new facility uses strong chemicals and very hot water to clean and wash down the food preparation areas, requiring a corrosion resistant drainage system capable of withstanding heavy and constant wheel loads from forklifts.

#### ACO's Solution

- **System 200** stainless steel channels with stainless steel Ladder grates

#### Benefits

- The stainless steel channel has a 1:100 built-in fall enabling efficient drainage to outlets
- Stainless steel channels with solid edge profile and stainless steel Ladder grates are durable and strong to withstand small forklift traffic
- Grade 316 stainless steel was selected to ensure a high level of corrosion resistance during wash down processes

#### Other ACO Products Used

- Gullies and floor drains
- Grease separator
