

## Brick Lane Brewing, Dandenong Vic

Brick Lane Brewing was founded in 2017 by 25 friends, including football player Billy Slater and brewing legends Jon Setlin and Paul Bowker. In 2018, they signed a three-year deal as the official beer sponsor of the NRL Club Melbourne Storm.

### Project Design Brief

Beverage production typically creates a vast volume of wastewater up to six times the finished product. To combat this, the purpose-built brewery was engineered to reduce water and energy consumption and limit the impact on the environment.

Cleanliness was a key consideration of the project and corrosive resistant drainage systems were required for the new site. In addition, designers wanted falls in channels to ensure efficient drainage to outlet points to eliminate standing water on the floor surface.

### ACO's Solution

- **System 200** with Stainless 5 Star **Heelsafe**® *Anti-Slip* grates

### Benefits

- The 1% built-in falls provide efficient drainage to the outlet
- Stainless 5 Star **Heelsafe**® *Anti-Slip* grates meet slip rating R11 (AS 4586) for worker safety
- Both the channel and grates are manufactured from grade 304 stainless steel, which provides a satisfactory level of corrosion resistance to wash down chemicals
