

## ACO Stainless – System 100

### Case Study

#### Vista Apartments, Melbourne, Victoria

Vista Apartments is situated 15km from the Melbourne CBD in the bayside suburb of Highett. Situated close to beaches and parklands, the complex also features resort style amenities, including a gym, swimming pool and outdoor community spaces.

#### Project Design Brief

Designers wanted to ensure longevity of the drainage within the swimming pool area. The channel was positioned away from the pool edge and water captured by the drainage system needed to be removed quickly.

#### ACO's Solution

- **System 100** sloped channels with Linéaire *Anti-Slip* grates

#### Benefits

- The channel and grate system was manufactured in grade 316 stainless steel, to provide a durable, long-term solution
- Sloping system drains water efficiently

#### Other ACO products used

- Trench drainage systems (ACO Drain®)
- Bathroom drainage systems (QuARTz by ACO)
